

Southern Maryland Electric Cooperative (SMECO) Small Business HVAC Tune-up Program Honeywell T6 Pro Smart Thermostat

Two Great Energy Incentive at No Cost to SMECO Customers Save Energy, Save Money

Whether you own a convenience store or run a place of worship, small family business, or diner, you can reduce your energy costs while enhancing workplace comfort.

Heating and cooling represent a significant portion of your company's annual energy costs. When your heating, ventilation, and cooling (HVAC) equipment is running efficiently, you get increased comfort and decreased costs. The **SMECO Small Business HVAC Tune-up Program** offers a No-cost, high-return opportunity for businesses like yours to improve the energy efficiency of direct-expansion rooftop units and split systems. The tune-up process will require cleaning the evaporator and condenser coils at a minimum, using industry-approved cleaning methods and cleaners. The technician should also note any other issues observed that could affect the unit's performance.

Eligibility

The SMECO Small Business HVAC Tune-up Program is available to commercial customers with a **monthly demand of 60 kW or less over a 12-month period.**

EmPOWER
MARYLAND

Key Benefits of an HVAC Tune-up

- Optimizes the energy efficiency of your HVAC unit without a significant investment
- Extends the life of existing HVAC equipment
- Reduces maintenance costs
- Increases occupant comfort and safety
- Helps prevent system failure during cold and hot months
- Free Honeywell T6 Pro Smart Thermostat installed with HVAC Tune-Up.

Put Technology to Work for Your Small Business

Now you can **get a Honeywell T6 Pro smart thermostat and professional installation**—a \$279 value—**for just \$69. or FREE with HVAC Tune Up Incentive**

Benefits

With a Wi-Fi enabled smart thermostat, you'll enjoy:

- **Savings.** Save up to 10% on your annual heating and cooling costs.*
- **Convenience.** Control your HVAC system from anywhere using your smartphone, tablet, or computer.
- **Automated settings.** Set back your HVAC system automatically on evenings and weekends when your business is closed or when spaces are unoccupied.
- **Increased comfort.** Rely on your thermostat's ability to monitor weather changes and adjust the temperature to maintain comfort and lower costs.
- **Settings control.** Use the optional lockout feature to keep employees from tampering with the temperature.

To get smart thermostats installed, contact your SMECO participating contractor.

*Savings compared to a conventional thermostat operating a 5-ton rooftop unit providing electric heating and cooling in a small retail environment. You may notice more or less savings based on equipment, fuel source, operating hours, and business and building type.

Features

Smart thermostats have several helpful features built in.

- **System Mode** shows your smart thermostat's current setting [heat/cool/auto/off].
- **Temperature** shows the indoor temperature in your business.
- **Humidity** shows the indoor humidity.
- **Menu** enables you to control your system based on your hours of operation and more.
- **Weather** shows the local weather and forecast for the week.
- **Quick Changes** lets you switch easily from home and away.

Eligibility

The Small Business Solutions Program is available to commercial customers in the SMECO service territory with rate codes 401, 402, 403, and 404 with a demand of less than 60kW.

Additional Small Business Solutions Programs

By offering ways to manage and reduce energy costs, the SMECO Small Business Solutions Program helps small business owners and nonprofit organizations stay competitive. We can help you upgrade to energy-efficient equipment and save up to 80% of project costs for most lighting, refrigeration, and smart thermostat retrofit projects—plus some related expenses. Visit [SMECO.coop/business](https://www.smecho.coop/business) for more information.

Lighting: To participate, you must use the SMECO program contractor assigned to your county.
